

The simple guide to quoting in the Flock Platform

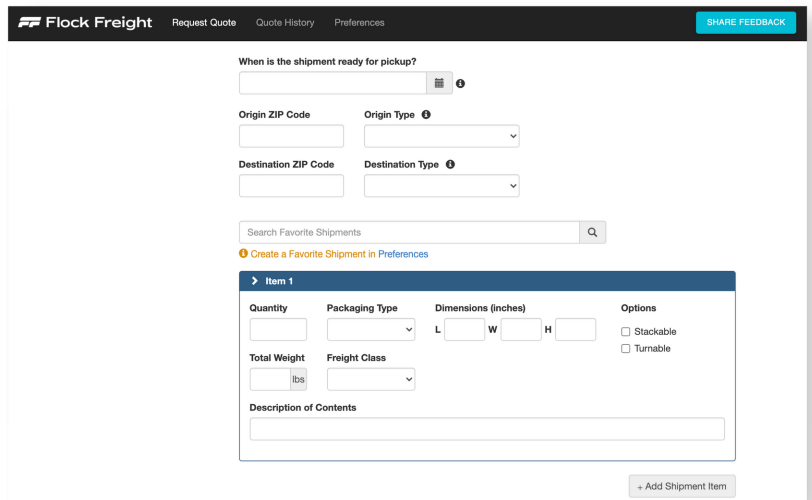

Here's everything you need to know about receiving a freight quote, right from the Flock Platform.

Get started

01 Visit app.flockfreight.com/login and log in to your Flock Freight profile.

02 You will arrive at our quoting page, where you can access shared truckload (STL), truckload (TL), and less-than truckload (LTL) pricing.

Begin your quote

- 01** Enter your shipment’s ready date (the date the shipment will pick up).
- 02** Enter your shipment’s origin/destination zip codes and origin/destination types.
 - Hover over the info icon (**i**) for additional information on each field.
- 03** Enter shipment information (with as much detail as possible!)
 - Quantity
 - Packaging type
 - Dimensions (in inches)
 - Total weight
 - Freight class
 - Description/commodity
 - Options: Mark stackable or turnable if applicable
- 04** If you have multiple packaging types or varying pallet dimensions, click “Add Shipment Item” and repeat the process above.

The screenshot shows a web form for creating a shipment quote. At the top, it asks "When is the shipment ready for pickup?" with a date field set to 9/13/2021 and an info icon. Below this are fields for "Origin ZIP Code" (02081, Walpole, MA) and "Origin Type" (Business with Dock). Similarly, there are fields for "Destination ZIP Code" (60654, Chicago, IL) and "Destination Type" (Business with Dock). A search bar for "Favorite Shipments" is present, with a link to "Create a Favorite Shipment in Preferences".

The main section shows "Item 1" with a summary: "14 Pallets (48x40), Class 85, 14,990 lbs., 48" x 40" x 65". Below this is a table of specifications:

Quantity	Packaging Type	Dimensions (inches)	Options
14	Pallets (48x40)	L: 48 W: 40 H: 65	<input type="checkbox"/> Stackable <input type="checkbox"/> Turnable
Total Weight	Freight Class	Total Volume = 1011.11 ft. ³ Density = 14.83 lbs./ft. ³ Density-based Freight Class = 85	
14990 lbs	85		

At the bottom, there is a "Description of Contents" field containing the text "Electronics" and a "+ Add Shipment Item" button.

 **Here's a tip:** Save time on future quotes by creating a "Favorite Shipment" in your account preferences.

Specify shipment preferences

01 Enter your shipment's pickup and delivery scheduling needs under "Scheduling Services."

- If your shipment requires pickup or delivery appointments, Flock Freight will schedule the appointments for the requested pickup and delivery dates.
- Please do not select "Arrive On or Before" unless team service is needed.

 **Here's a tip:** Not sure which to choose? Hover over the info icon (i) for more details on each option.

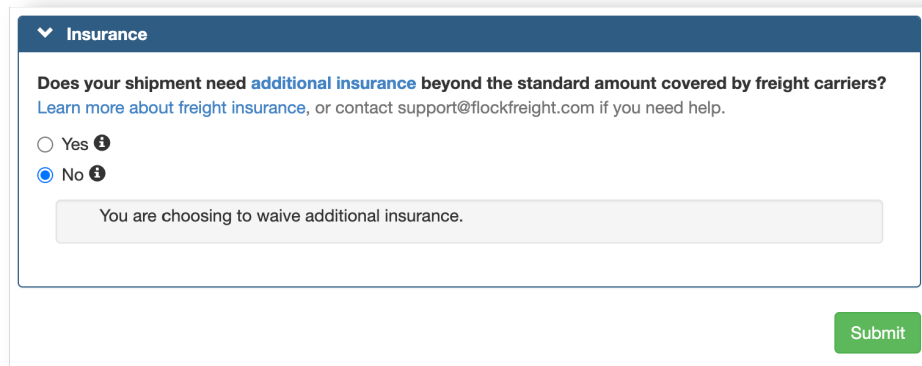

02 Specify any additional shipping services needed.

- Select "Load to Ride" when you need to ensure your shipment does not transload.
- Select "Exclusive Use" to only receive truckload (TL) rates.
- Select "Prohibited Vehicle Types" to indicate that certain vehicle types cannot be used to move your shipment.

 **Here's a tip:** Be sure to specify shipping services upfront to receive the lowest quote and eliminate risk of in-transit product damage.

Shipment preferences, continued

03 Choose to add or decline additional insurance.

Insurance

Does your shipment need **additional insurance** beyond the standard amount covered by freight carriers?
[Learn more about freight insurance](#), or contact support@flockfreight.com if you need help.

Yes ⓘ

No ⓘ

You are choosing to waive additional insurance.

Submit

 *Here's a tip:* FlockDirect shipments are insured for up to \$100,000 – at no additional cost to you!

04 Select "Submit" to receive your quote!

Shipment flexibility

Not on a strict shipping deadline? When you choose one or two-day flexible pickup options on our FlockDirect service, we'll offer you a lower rate. This gives us more time to pool your freight into one emissions-slashing, technology-optimized shared truckload.

Please note: If you choose "No Flexibility", your shipment will pickup and deliver on the dates you originally requested.

➤ Shipment Details: Walpole → Chicago, 18 Pallets (48x40), 17290 lbs. total weight
